

TIMOTHY KAMAU MUNYIRI

Full Stack Developer & ICT Support Technician

 timo.munyiri@gmail.com  +254 768 394 866  Nairobi, Kenya  github.com/Timokama

PROFESSIONAL SUMMARY

Full-stack developer and ICT Support technician with 2+ years experience building responsive web applications and managing IT infrastructure for SMEs. Proficient in React, Node.js, Python, Java and hardware/network troubleshooting. I deliver clean, fast software and keep systems secure and reliable.

TECHNICAL SKILLS

Frontend: React, Next.js, JavaScript, HTML, CSS, Tailwind CSS

Databases: PostgreSQL, MySQL, MongoDB, LocalStorage

APIs & Tools: M-Pesa Daraja, WhatsApp API, Git/GitHub, Leaflet.js, QR Systems

Backend: Node.js, Python Flask, Java, REST APIs, JWT Authentication

ICT Support: Windows/Linux Admin, Active Directory, LAN/WAN, Printer/Network setup

Other: System Deployment, Technical Training, Troubleshooting, IT Documentation

WORK EXPERIENCE

Freelance Full Stack Developer

2024 - Present

- Designed and deployed 3 production web applications: E-commerce store, Restaurant QR menu, School management system
- Integrated M-Pesa Daraja API for STK push payments and WhatsApp Business API for automated order notifications
- Built responsive, mobile-first UIs with React + Tailwind CSS. Implemented dark/light theme with localStorage persistence
- Optimized performance achieving 90+ Google PageSpeed scores on mobile devices

ICT Support Technician & Instructor

2023 - Present

- Provide Tier 1 & 2 technical support for 50+ users including hardware diagnostics, software installation, and OS configuration
- Configure and maintain LAN/WAN networks, routers, switches, and ensure 99% uptime for office connectivity
- Deploy and manage Windows environments, Microsoft Office, antivirus, and business-critical applications
- Train staff and students on computer fundamentals, cybersecurity awareness, and productivity tools
- Maintain ICT asset inventory and implement weekly backup procedures for critical data

KEY PROJECTS

Restaurant QR Menu System

2026

- QR code-based digital menu with real-time updates. No app download required for customers
- Features: Category filtering, cart, WhatsApp order integration, dark/light theme toggle
- Stack: Vanilla HTML, CSS, JavaScript. Live demo: timokama.github.io/restaurant-menu.html

E-commerce Store with Delivery Mapping

2026

- Full-featured online store with product search, categories, cart persistence, and WhatsApp checkout
- Integrated Leaflet.js + OpenStreetMap for customers to pin exact delivery location
- Stack: HTML, CSS, JavaScript, LocalStorage. Mobile-optimized with 60x60px cart images

EDUCATION

Diploma in Information Technology 2022 - 2024

Key coursework: Web Development, Database Management, Computer Networks, System Administration
